HORNE LLP Executive Partner Joey Havens Named to Accounting Today MP Elite List

RIDGELAND, Miss., October 11, 2016 – HORNE LLP’s Executive Partner Joey Havens has been named to Accounting Today’s 2016 Class of the Managing Partner Elite.

Accounting Today says of Havens, “Leaders are rare, but rarer still are leaders who develop other leaders – and Joey Havens is definitely one of those. It shows in the “Wise Firm” culture he has installed at HORNE, an incredibly positive and empowering ethos that urges employees to “beBetter,” even as it gives them unparalleled flexibility and support to do so. (It’s well worth a look at www.wisefirm.com.) Under Havens, the firm has grown its revenues over 40 percent, grown its staff almost 30 percent (while significantly lowering turnover), and innovated in service areas like its new cybersecurity practice.”

The annual list highlights leaders of accounting firms who stand out among their peers for being innovative, forward-thinking and unusually successful. According to Accounting Today, those who make the list tend to be highly focused on firm culture, given to creating formal strategies for important aspects of the firm like growth and succession, open to technology – but not obsessed with it, and are often leaders in their communities, not just contributors.

The full report is available in the [digital edition of the October issue](#).

HORNE is a decidedly different CPA and business advisory firm that is changing expectations about accounting. HORNE goes beyond traditional accounting to steer clients through uncertainties and opportunities. We focus our knowledge and experience in banking, construction, franchise, government, healthcare and public and middle market. HORNE Wealth Advisors is a fiduciary partner to high-net worth individuals. Visit us at hornellp.com.
